

BOSTON PUBLIC SCHOOLS

Boston Adult Technical Academy

Sheila Azores, Ed.M. Headmaster

March 14, 2014

Dear Mr. Krulewitch,

Thank you for reaching out on behalf of the Bay Village Neighborhood Association.

Let me introduce to you Boston Adult Technical Academy. We are an alternative school organization that prepares students between the ages of 19 and 22 for college and careers. We are a diverse community of learners that includes new Bostonians from over 13 countries as well as native students.

Our students are self-motivated, emerging adults that constantly engage in community service projects and seek opportunities for employment and internships in the local business and institutional enterprises.

Our curricular expectations require our student body to develop a sense of collective responsibility and respect for the environment; our school traditionally observes the celebration of Earth Day with the planting of trees and betterment of the school premises with a sense of camaraderie and a spirit of stewardship with the local community.

We know your association and our school will achieve mutual gains as neighbors. We will invite you to meet our community of students and educators and share the fun and rewarding experience of sharing our students' success.

Again, thank you for your message. We look forward to working with your association.

Sincerely,
Sheila Azores
Headmaster,
Boston Adult Technical Academy
